

February FLEW by in the Grapes class! We learned all about Shapes this month. Everyone did a WONDERFUL job receptively and expressively identifying shapes. We sorted shapes, matched shapes, colored and painted shapes. We added shape roads to the block center and they had so much fun driving cars over the different shapes. Foam shapes were added to the sensory table. The students also made shapes out of play-dough and popsicle sticks. Their favorite center this month has been the Pretend Play Post Office. They have loved delivering mail and packages to their friends. We celebrated Valentine's Day and the students had the BEST time. They participated in a Valentine's Exchange and we worked on signing and saying Happy Heart Day and Thank You! Thank you to everyone who brought stuff for our party!

We started our Transportation Unit this week and it has been a hit! The pretend play center has been transformed into a Train Station with a Train pop-up tent. They have absolutely loved this! Kinetic sand and construction vehicles have been added to the sensory table, which has also been a favorite center. We are working on matching modes of transportation, talking about how we get to and from school and sorting transportation by land/air/water.

**Upcoming Themes:** Transportation, Community Helpers

**Letters:** N, D, H

**Reminders for March:**

March 6- FSP Day Marbles Field Trip (RSVP Required)

March 9- Teacher Workday (NO SCHOOL) Parent/Teacher Conferences
